

PBT PET	PBT PET	glass fiber reinforced	Injection molding		
Excellent flame retardance			Good mechanical properties		
Specific Gravity		ISO		g/cm	
Tensile Strength		ISO	mm/min	MPa	
Flexural Strength		ISO	mm/min	MPa	
Charpy	Noched Impact Strength	ISO	eA	kJ/m	
Charpy	Unnotched Impact Strength	ISO	eU	kJ/m	
Flammability		UL			V

The data above is typical value for reference only. The data will vary with the color, the thickness, the molding process and the location. The data will vary with the different color and the material. The data will vary with the different color and the material.

Mel Temp		
Ba el Temp	Rea	
	Cen e	
	F on	
Mold Temp		
P e D ₁ needed		h

The above process condition is only for reference. The actual process should be adjusted according to the difference of machine mold design and product design.
